Ekin's Experience

correct, after it happened i realized how wrong it was so i 16:43 decided to contact here for help It's been an issue with me for a 16:43 long time honestly i just hit my desk, hit furniture, or 16:44 scratch myself (which is rare) so it never really stops, and I don't know if I can stop it in the long 16:44 term while I need to do this project It's understandable to want some relief from such a stressful and overwhelming project and to feel 16:49 frustrated with the scratching and hitting. (1/2) I'm curious, what other coping skills have you tried in the past? 16:49 (2/2)

Ekin's Experience

I'm wondering, have you taken any steps towards acting on your plan for suicide already, aside from the scratches and hitting? (2/2)

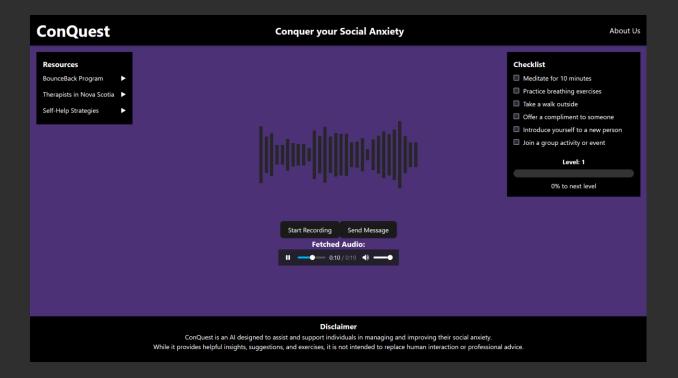

> No, I have no big plan or anything. It just happens momentarily when I get stressed

Thank you for letting me know. Just to clarify, have you chosen a specific time to go through with your plan for ending your life?

> No, again, I don't have a plan or time for suicide, I just had a thought that happened when I was stressed and scratched myself
